

- Problem Statement:
- Category: junior/senior
- Team Name:
- Team Leader:

Solution Architecture

Include a process flowchart,
simulated prototype image, or any
relevant visual representation of
your idea.

Tech Stack

Describe your Technology
stack here

Key Features

1. Core Functionality: The primary feature of your project, explaining what it does and how it works.
- 2.. Key AlgorithmS: The main algorithms or models driving the project's functionality.
3. Innovative Aspects: Unique or creative features that distinguish your project from others.

Challenges and Approach

Identify key challenges encountered and list practical solutions to ensure successful implementation and sustainability
